FINANCIAL RESULTS

The board of directors (the “Board”) of China Environmental Resources Group Limited (the “Company”) announces the unaudited condensed consolidated interim results of the Company and its subsidiaries (collectively referred to as the “Group”) for the six months ended 31 December 2015 together with the comparative figures for the corresponding period in 2014. These interim financial statements have not been audited, but have been reviewed by the audit committee and auditor of the Company.

INDEPENDENT REVIEW REPORT

TO THE BOARD OF DIRECTORS OF CHINA ENVIRONMENTAL RESOURCES GROUP LIMITED

中國環境資源集團有限公司

(Incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 5 to 26 which comprises the condensed consolidated statement of financial position of the Company as at 31 December 2015 and the related condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). The directors are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the HKICPA. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.

2. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial statements ("Interim Financial Statements") have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the applicable disclosure requirements of Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

The Interim Financial Statements do not include all the information and disclosures required in the full set of financial statements prepared in accordance with the Hong Kong Financial Reporting Standards ("HKFRSS"), and should be read in conjunction with the Group's annual financial statements for the year ended 30 June 2015.

The preparation of Interim Financial Statements in conformity with HKAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year-to-date basis. Actual results may differ from these estimates.

The accounting policies and methods of computation used in the preparation of the Interim Financial Statements are consistent with those used in the Group's annual financial statements for the year ended 30 June 2015 except as stated below.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS

For the six months ended 31 December 2015

3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

In the current period, the Group has adopted all the new and revised HKFRSs issued by the HKICPA that are relevant to its operations and effective for its accounting period beginning on 1 July 2015. HKFRSs comprise Hong Kong Financial Reporting Standards; Hong Kong Accounting Standards; and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's financial statements and amounts reported for the current period and prior periods.

The Group has not applied new and revised HKFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of those new and revised HKFRSs but is not yet in a position to state whether these new and revised HKFRSs would have a material impact on its results of operations and financial position.

4. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

The Group's standing timber volume as at 31 December 2015 was evaluated by an independent forestry operator engaged by the Group. The Directors of the Company have adopted market value approach for the valuation of standing timbers. The method uses the present market value in terms of price per unit cubic meter of round logs and the total merchantable volume of timbers on the plantation land at 31 December 2015 as a basis for calculating the fair value less costs to sell of the biological assets. The principal assumptions adopted are as follows:

1. no material changes in the existing political, legal, technological, fiscal, economic conditions, climate and any other natural condition;
2. poplar trees can grow to certain size and can be legally cut in 8 years and in 5 years with organic fertilisers added; and
3. the movement of the price of the timber, the setup fee and maintenance fee for tree plantation will move in line with the price index of forestry product in China.

Nature risk

The Group's revenue depends significantly on the ability to harvest wood at adequate levels. The ability to harvest on the plantation land and the growth of the trees on the plantation land may be affected by unfavorable local weather conditions and natural disasters. Weather conditions such as earthquakes, rainfall, underground water, fire, disease, insect infestation and pests are examples of such events. The occurrence of severe weather conditions or natural disasters may diminish the supply of trees available for harvesting on the plantation land, or otherwise impede The Group's logging operations or the growth of the trees on the plantation land, which in turn may have a material adverse effect on the Group's ability to produce the products in sufficient quantities and a timely manner.

The Group has been continuing to explore new business opportunities for corporate development and dedicates to develop, sustainable and viable green businesses serving both the mankind and the environment.

Most developed countries' economies continued to remain sluggish and drastic turbulences in global financial markets will still cloud the economic development of PRC. Due to global climatic change, the world and the PRC had experienced non-stopped natural disasters on unprecedented scale and damage during last few years and the weather will become extremely unpredictable.

With specific to the Group's operating Plantation Land of approximately 30,000 mu (Chinese Mu) in Shihezi City. The underground water level of the region dropped drastically in recent years due to over-exploitation of farmland, resulting in a shortage of water resources. China has a population of approximately 1.4 billion, which is accounted for 19% of the world's population. In contrast, the cultivable land in China is only 1.826 billion Chinese Mu, which is accounted for 7% of world's total cultivable land. The PRC Government continuously placed strategic importance on the "Three Rural Issues". The <Twelfth Five-Year Plan for National Economic and Social Development>, formulating the next phase of economic growth for 2011-2015, reiterated the modernization of agriculture and accelerated establishment of modern agricultural village. Regarding environmental aspect, the average growth rate of energy consumption were approximately 10% per annum for last five years. Having based on the above sectors blessed by China's prioritized policies, the Group will continue to capitalize the green business opportunities stimulated by supportive government policies and uprising green markets. However, the sluggish economies of most developed countries' economies, global financial markets turbulences and slowing PRC economic growth will continue to cloud the economic development of PRC in next few years. In addition, the scale, intensity, frequency and related economic loss of natural disasters in the world as well as in PRC caused by the global climatic change will continue to become extreme uncertainties and risks for the Group's operating activities.
